

Research Identifiers Fact Sheet

Web of Science

This fact sheet is one of a series available that discusses how to create and manage an online academic profile. For research assistance, contact the [Flinders University Library](#).

Why Web of Science ID (Publons ID)

- Cleaning up your multiple profiles means your citation overview is aggregated and ensures your data is accurate. This data is used for the Highly Cited Researcher list and in the bibliometric impact bench-marking database InCites. Keeping this accurate will ensure you have timely information at your fingertips for your next promotion or grant application.
- Sync with ORCID to keep your Web of Science record (and ORCID record) up-to-date.
- Web of Science data is used for University rankings worldwide.
- Check and claim publications once or twice a year.

Affiliation

Web of Science will update your profile affiliation with the affiliation of your most recently published (and indexed) paper. Ensure your affiliation is to Flinders University.

Web of Science (Publons) step-by-step guide

Link Publons & ORCID step-by-step guide

1. In Publons, navigate to *Settings* > *Permissions*.

2. Tick box to Sync your ORCID record with Publons and Export your publications to ORCID.

SYNC YOUR ORCID RECORD WITH PUBLONS

Tick the box below and save your settings to automatically import any publications you add to your ORCID record, when you add them to your ORCID record.

Keep my publication list up to date with my ORCID record

Note: when you select this option we will import your publications from ORCID to Publons. Any future changes you make to your publication record on ORCID will be reflected on your Publons profile.

EXPORT PUBLICATIONS TO ORCID:

Keep my ORCID publication list up to date with my Publons account

You have 38 eligible publications which can be exported to your ORCID record.
If you believe you have exportable publications which are not counted above, please read about export requirements.

EXPORT PUBLICATIONS TO ORCID NOW

You can use Publons' connections to Web of Science and other services to import more of your publications here.

Syncing with Publons ID will push publications from Web of Science to ORCID and ORCID publications to Publons.
