

# Researcher Profiles

## in Web of Science

Publons has joined Web of Science. Build, manage and maintain your scholarly presence with simple tools on one trusted platform—the Web of Science. Sign in and manage your profile at [webofscience.com](http://webofscience.com).

An example profile:

The screenshot shows a researcher profile for Joshua Schnell. The profile includes a profile picture, name, and a green checkmark indicating a claimed and verified profile. It lists published names, organizations, and other identifiers like ORCID. The main section displays 20 publications from the Web of Science Core Collection, with a filter to include or exclude non-indexed publications. A 'Peer Review' tab is also visible. On the right, there is a 'Verify your Author Record' section, a 'Metrics Dashboard' showing H-index (11), Sum of Times Cited (1,540), and Citing Articles (1,462), and an 'Author Impact Beamplot Summary' showing citation percentile data. A 'Co-authors' section is partially visible at the bottom.

**Author information:**

- Preferred name
- A green check mark indicates a claimed and verified profile
- Published names and recent affiliations
- Awards
- Link to ORCID if enabled by the author

Manage your personalized Web of Science experience here. Add publications and peer reviews, and if you use Web of Science, manage your saved searches and alerts.

**Publications** can be added by claiming author records, or syncing with ORCID. By default Web of Science Core Collection publications are displayed. Check the box to also include publications from other sources.

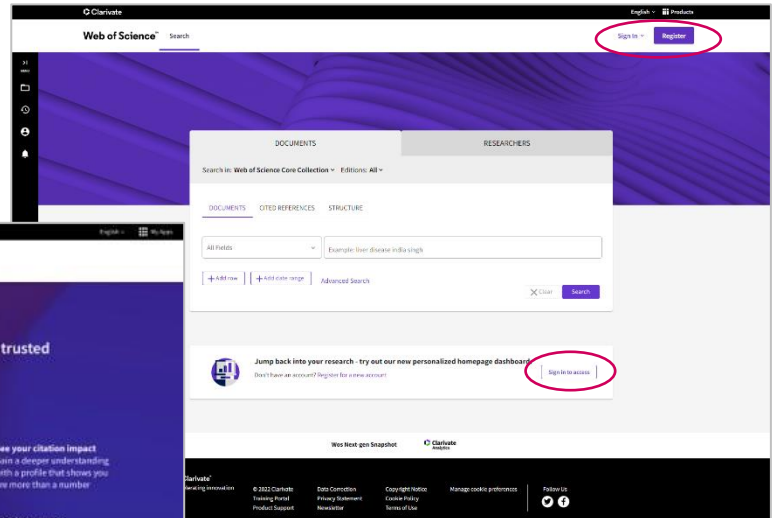

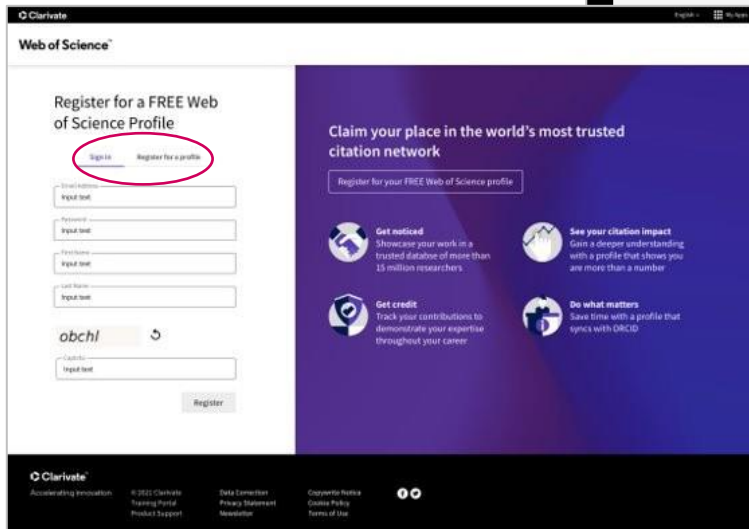

Display your **peer reviews**, grant reviews, board memberships and editor records (those for which the researcher coordinated the review process).

**Metrics Dashboard** displays a summary of publication and citation data. Click the Dashboard button to reveal additional visualizations.

The **Author Impact Beamplot** provides normalized citation data for this author profile. Citation counts are compared to other documents of the same age, type and subject.

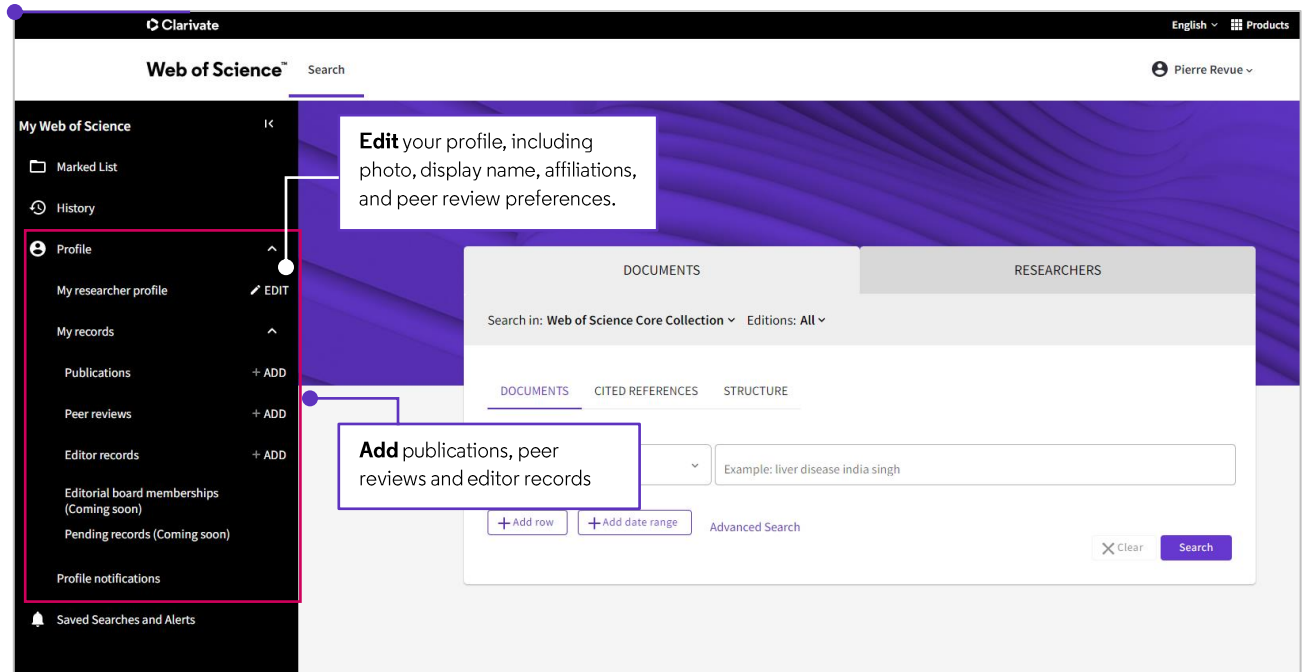

## 1. Sign in and manage your profile

From **webofscience.com** use your existing Publons or Web of Science credentials to sign in and manage your profile. If you're new register for a free account.

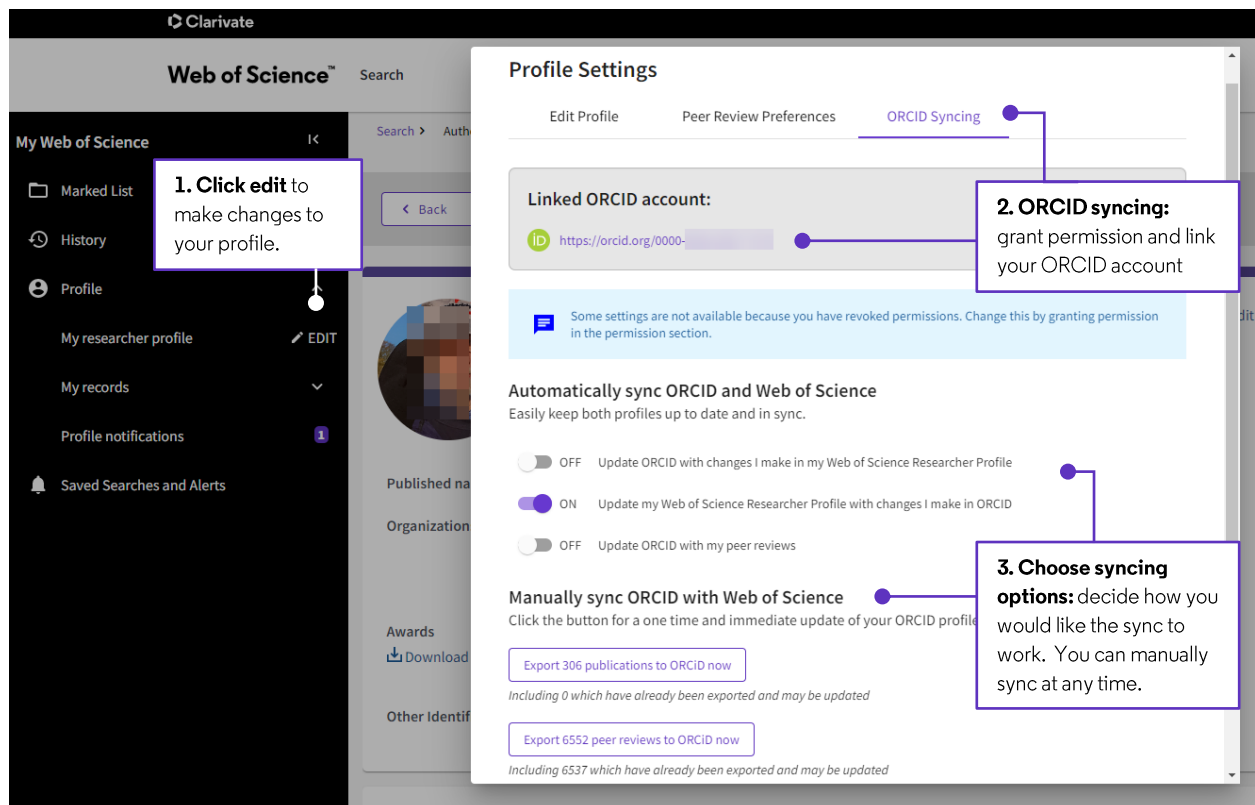

## 2. Add publications and peer reviews, edit your profile, and more...

Once logged in, use the left navigation menu to make changes to your profile.

### 3. Sync with your ORCID account

Keep both profiles up to date from one place. If you have already synced your Publons account to ORCID, no need to do it again. Those settings will be active in the new environment.

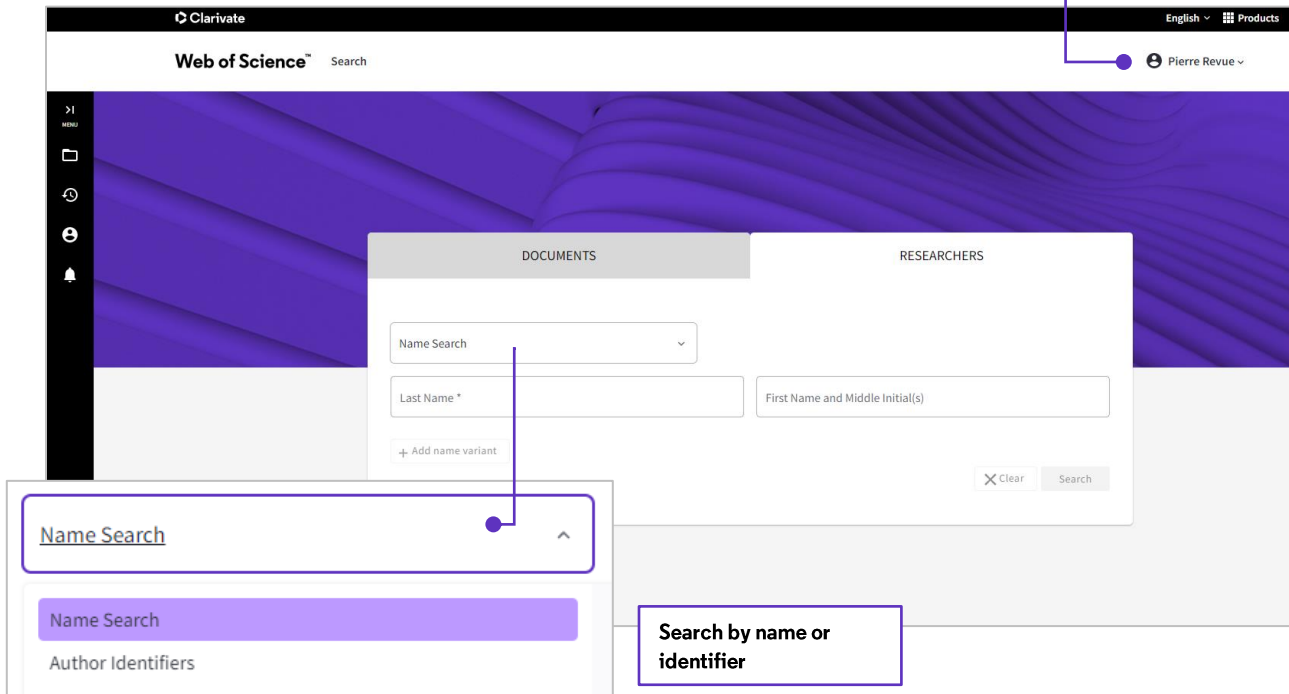

The screenshot shows the 'Profile Settings' page in the Web of Science interface, specifically the 'ORCID Syncing' tab. The page is divided into three main sections: 'Linked ORCID account', 'Automatically sync ORCID and Web of Science', and 'Manually sync ORCID with Web of Science'. Three callout boxes provide instructions:

- 1. Click edit to make changes to your profile.** This callout points to the 'EDIT' button next to 'My researcher profile' in the left-hand navigation menu.
- 2. ORCID syncing: grant permission and link your ORCID account** This callout points to the 'Linked ORCID account' section, which shows a linked ORCID ID and a message indicating that some settings are not available due to revoked permissions.
- 3. Choose syncing options: decide how you would like the sync to work. You can manually sync at any time.** This callout points to the 'Automatically sync ORCID and Web of Science' section, which contains three toggle switches for automatic syncing and two buttons for manual syncing.

## 4. Find peers and collaborators with Researcher search

As a **registered user**, search the claimed profiles of others by name or identifier. If you are also a Web of Science subscriber, searching also includes unclaimed author records and documents.

Sign into your profile to search

The screenshot shows the Web of Science search interface. At the top, there is a navigation bar with the Clarivate logo, 'Web of Science™ Search', and user options for 'English' and 'Products'. A user profile for 'Pierre Revue' is visible in the top right. The main search area is divided into two tabs: 'DOCUMENTS' and 'RESEARCHERS'. The 'RESEARCHERS' tab is active, showing a search form with the following fields: 'Name Search' (a dropdown menu), 'Last Name \*', and 'First Name and Middle Initial(s)'. There is also an '+ Add name variant' button and 'Clear' and 'Search' buttons. A callout box points to the 'Name Search' dropdown, which is expanded to show two options: 'Name Search' (highlighted in purple) and 'Author Identifiers'. Another callout box points to the 'Name Search' option in the dropdown, with the text 'Search by name or identifier'.
